

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF KENTUCKY-AMERICAN	)	
WATER COMPANY FOR AN ADJUSTMENT	)	CASE NO. 92-452
OF RATES	)	

O R D E R

On July 15, 1993, Chetan Talwalkar, an intervenor, filed a motion requesting the Commission to compel Kentucky-American Water Company ("Kentucky-American") to provide further responses to Mr. Talwalkar's hearing data request No. 7. The motion does not allege that Kentucky-American's July 9, 1993 response to that request is unresponsive or evasive, but does allege that the response is incomplete in limited respects, that some of the data appears to be inconsistent and erroneous, and that no documentation or explanation has been provided to support the data response.

Kentucky-American filed on July 21, 1993 a response to the motion to compel stating that certain mathematical errors did appear in its July 9, 1993 response, and a revised response reflecting the corrections was filed therewith. Further, Kentucky-American stated that an explanation of the data response was contained in its 1992 Least Cost/Comprehensive Planning Study and Water Demand Forecasting prepared by Brown and Caldwell Consultants, and that the revised population data are contained in the 1992 edition of How Many Kentuckians, published by the University of Louisville.

Based on the motion and the response, and being advised, the Commission hereby finds that Kentucky-American's original response to hearing data request No. 7, as supplemented by its July 21, 1993 revision, fully responds to the request. To the extent that the motion seeks additional information not previously requested, it violates the established procedural schedule.

IT IS THEREFORE ORDERED that Talwalkar's motion to compel be and it hereby is denied.

Done at Frankfort, Kentucky, this 26th day of July, 1993.

PUBLIC SERVICE COMMISSION

  
For the Commission
